

PDL Homework

For your homework this week, we would like you to design and complete a questionnaire to find out about a specific profession. Your questionnaire will need to find out as much information as possible about the given job and you will need to record your answers to bring them into school. You will need at least five questions and your answers should be written answers not one word answers. It is important that you complete your questionnaire with someone you know (parent, grandparent, neighbour). You must also make sure you record what the job is that you are questioning about. It is important that you do not ask someone how much they are paid. You will have two weeks to complete this task.

Please produce your questionnaire on a separate piece of paper, ready to be added to your PDL book (so presentation is even more so important). An example of layout is added within week 8, which you could print out if preferred.

You will need to think about...

- Positives and negatives to the job.
- Training and qualifications.
- How the job has changed in their time of work.
- How many hours a week.
- Job satisfaction.
- Work/life balance.
- Qualities needed for the job.
- Application process.
- Description of the job.
