Sketchbook Focus & Key Knowledge

Apply knowledge of colour theory to develop colours, shades and tones when painting.

Claude Monet was a French impressionist artist born in Paris in 1840. He often enjoyed painting the same scene but at different times of the day to capture the change in light.

Impressionist painting shows life-like subjects painted in a broad, rapid style, with brushstrokes that are easily seen and colours that are often bright.

Outcome

Using watercolours, replicate one of Monet's famous pieces.
