

13. How are the school's resources allocated and matched to the children's special educational needs?

We ensure that children with SEND have their needs met to the best of our ability and the funds that we have available. We have a team of LSAs who are funded by our SEN budget and they deliver appropriate programmes to try and enhance a child's learning and social skills. Where appropriate additional resources are allocated as part of Pupil Premium funding where those children with SEND are eligible.
