

Welcome to Charms class.

In Harry Potter and the Chamber of Secrets, Ron Weasley's dad secretly owns an enchanted Muggle car that can fly! In the story Harry and Ron, have to use the car to get to Hogwarts. They end up crashing into the Whomping Willow.

If you could enchant an everyday object to give it a special ability or feature, what object would you choose? Draw a picture and label it. Remember that the special ability would enhance what the object already does. It doesn't change it altogether.

Some examples

A constantly refilling water bottle

A map that could take you to places

A knife and fork that cut the food themselves

A clock that can tell you where each member of the family is

A vehicle that can squeeze through small spaces

Photos that can move around

What might happen as a result of its enchantment? Think about a situation that someone might get into (good or bad) using your enchanted object.

Record your ideas on the sheet. If you would like, you could write a story or part of a story that includes your enchanted object.
