A Very Unusual Winter

- 9 Children across the country splashed and frolicked in the
16 paddling pool, wearing their swimming costumes and
25 thick streaks of sun cream. Windows were wide open,
37 fans were out of stock in most high street shops and the
48 ice cream van hadn't made so much money in ages. It
59 was the hottest day the United Kingdom had seen in over
67 thirty years... yet it was the 21st December.
- 77 For as long as anyone could remember, the 21st of
86 December had been an icy, cold day. Commuters walked
96 to work, wrapped up tightly in thick coats and scarves,
105 past chimneys that plumed with thick, white smoke as
113 families gathered around the fireplace to keep warm...
123 but not this year. Something very unusual seemed to be
131 happening and one man – Simon Thomas – thought he
133 knew why...
