

# Year 4 Homework, Summer Term 1 Week 1

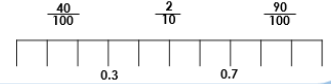

## Maths: Fun Five!

When writing tenths, the denominator is always \_\_\_\_.

Put the fractions on the number line.

How many tenths are shaded?

Asha has 10 donuts. She gives 6 away.

What fraction of the donuts does she have left?

Complete the part-whole model.

What fraction and decimal does the image represent?

Draw an image to represent these decimals...

0.9    0.3    0.5

Jane doesn't think that the ten frame represents 3 tenths.

Describe the misconception that Jane has!

**Quick Comprehension:** Complete the reading comprehension. Children should allow themselves one minute to read the text, and five/ten minutes to answer the questions. Some of the questions are quite tricky, so don't worry if you have to talk them through with an adult.

## Spellings

### Core

verb  
given  
novel  
visit  
keep  
kettle  
broken  
crackle  
work  
sink  
dark  
park  
book  
took  
mention  
position

### Support

another  
together  
whatever  
father  
mother  
constable  
sometimes  
something  
shallow  
try  
tried  
tries  
said  
have  
centre  
century

## SPaG Challenge in books please

Complete each sentence with the correct punctuation. Four sentences end with an exclamation mark and three end with a full stop.

We need to hide quickly.....

Jim ordered a pizza and some garlic bread.....

We've won the lottery.....

Just leave your shoes by the door.....

Ow, that hurts.....

They thought about which film to watch.....

There's a shark behind you.....

## Times Tables Activities

Please do some of the following:

Daily times tables on TT Rockstars

Times tables training grid

Times tables wheels

Daily chanting and oral questioning

Please remember: All homework is marked in class with the children and will not have written feedback on it.

Homework is due in on the following Friday.

# Great Galapagos

11 Thank you for joining us today; my name is David and  
22 I will be your tour guide. The Pacific Ocean and the  
30 enchanted volcanic islands of Galapagos are places unlike  
40 any other. They are home to an incredible collection of  
49 animals who have adapted to the harsh landscape around  
58 them. Most of them were discovered by an astounded  
69 Charles Darwin on his first trip to these islands over two  
72 hundred years ago.

83 On our right, you can see one of the islands' most  
90 remarkable inhabitants – the giant tortoise. There are  
102 hundreds of them on the beach at any time, lying in the  
112 sun to warm their blood and gather energy. Many may  
124 be older than you are right now and some will live for  
130 over one hundred years. Impressive, right?

## Quick Questions

1. Who discovered most of the animals on the Galapagos Islands?

---

2. Sum up the second paragraph in 20 words or less.

---

3. How has the author made the Galapagos Islands sound special within the text?

---

4. Name one other creature you could expect to see on this tour.

---
