

# How to Make a Nocturnal Access Portal (NAP)

## Instructions:

1. Use the sticky tape to attach each speaker to opposite sides of the plastic dome.
2. Securely connect the end of each wire to the dark, plastic dome. Ensure one wire is attached to each speaker.
3. Coil the wiring around the bottom of the armchair.
4. Connect the other end of the wiring to each of the circuit boards, then link these to the control panels.
5. Carefully insert the CHEESE into the plastic dome and secure it with sticky tape.

## You will need:

- a battered, old armchair
- several thick snakes of wiring
- multiple circuit boards
- a range of control panels
- 1 dark, plastic dome
- a pair of speakers
- a Clayton hypnagogic energy enhancing sensor ellipse (CHEESE)
- sticky tape

# Quick Questions

1. Draw three lines and match each of the objects to their description.

armchair  
thick and snake-like  
dome

dark and plastic  
wiring  
battered and old

2. Find and copy one word which means 'arrange something by winding it in a circular shape'.

\_\_\_\_\_

3. Why do you think the instructions are numbered?

\_\_\_\_\_

4. Explain why the word 'carefully' is used in step 5 of the instructions?
