

Health on the High Street

On every Wednesday at [Alton Assembly Rooms 10-2](#)

Health on the High Street is a regular community event designed to make it easier for you to access local health, wellbeing, and support services — all in one place. Whether you want to speak to someone about your mental health, find out about local activities, get housing or financial advice, or simply have a friendly chat, there's something here for everyone.

Drop by to meet members of your local team, ask questions, and connect with a range of organisations who are here to help. No appointment needed — just come along! <https://www.a31pcn.co.uk/hoths/>
